

Short CV

First Name: Andreas

Last Name: Falk

Affiliation/ Institution Name: BNN (BioNanoNet Forschungsgesellschaft mbH)

LinkedIn: <https://at.linkedin.com/in/andreas-falk-36896663>

Andreas Falk, MSc (*male*), is CEO of BioNanoNet ForschungsGmbH (BNN), studied **medical analytical technologies, and business administration** (University of Graz).

He was/is part of >85 completed/ongoing national and European projects in the thematic fields of (nano-)medicine & nano-**safety, innovation, & sustainable development**.

He is involved in shaping the strategies towards implementation of the “**safe-and-sustainable-by-design**”(SSbD)-concept.

He is **coordinator of the European Advanced Materials ecosystem via EU-project “InnoMatSyn”**, as well as **coordinator of the Austrian Advanced Materials (AdMa) ecosystem “ATIMA”**.

He has key roles in several national and international initiatives: Coordinator Network for Safety and sustainability of Chemicals and materials (NSC); Coordinator European Sustainable Chemistry Community (SCC); Coordinator INISS-Nano (internat. network initiative on Safety and Sustainability in Nanotechnologies); national expert at OECD-WPMN; plenum member of ISO TC229 & CEN TC352. In the field of nano-safety/nanotoxicology and industrial innovation support, since 2009 he contributed to internat. scientific conferences, and >25 publications.
