## Where Industry Meets Breakthroughs

The Sustainability Section of the [European Federation of Chemical Engineering \(EFCE\)](#), in collaboration with the Technical Chamber of Greece and the Hellenic Association of Chemical Engineers, is organizing the international conference [SuSChemE-SUSTENS2](#), focusing on sustainable technologies and practices for industry.

The conference is coordinated by more than 100 distinguished scientific committee members, 15 Topic Chairs and speakers from academia, industry, and research. On behalf of the organizing committee, we would like to invite you to actively participate in the conference, which will take place on June 28–30, 2026, in Athens (Greece), at the [Royal Olympic Hotel](#).

In addition to its scientific sessions, the conference will host a series of **discussion panels, round tables, and industry-driven presentations**, enhancing networking opportunities both within the industrial sector and with the scientific and academic community.

The conference covers a broad range of thematic areas, including – among others – artificial intelligence, renewable energy utilization, chemical recycling of plastics, the role and prospects of biotechnology, and approaches for designing safe and sustainable materials and processes.

Πανελλήνιος Σύνδεσμος Χημικών Μηχανικών

## CONCEPT & THEMATICS

At a time characterized by challenges as climate change, natural resource constraints and rapid technological advancement, the need for sustainable and resilient solutions for industry is more relevant than ever.

The conference, centrally focused on Resilient Sustainability, highlights the crucial role of state-of-the-art process design and digital tools in the development of flexible, efficient and environmentally responsible systems. With a particular emphasis on sustainable technologies and practices for industry, the conference promotes the strong steer of scientific research towards practical application, actively contributing to the transformation of modern industry and society.

This is a dynamic meeting point, bringing together businesses, professionals and the scientific community, with the aim of exchanging knowledge, developing strategic partnerships and accelerating the sustainable transformation of production and products.

## Exhibition

The conference offers the opportunity to exhibitors to set up their booths (4m<sup>2</sup>) in the Kallirhoe Room Foyer and the corridors connecting the conference hall and session rooms. The shape and content of each booth is at exhibitors' choice and expense, while collective booths from associations and clusters are welcome. Each booth will be equipped by the organizers with:

- ✓ Space assignment
- ✓ One table and four chairs
- ✓ General cleaning before the opening and after set up of the exhibition area
- ✓ Electricity supply (500W)
- ✓ Two exhibitor badges per 4m<sup>2</sup>

### Amplify Your Impact

Increase your visibility in a highly focused setting. Particularly useful for software and equipment vendors, service providers, projects and clusters, associations and stakeholders with target audience among industrialists, researchers and practitioners attending the conference.

#### Venue

Royal Olympic Hotel

#### Main Hall

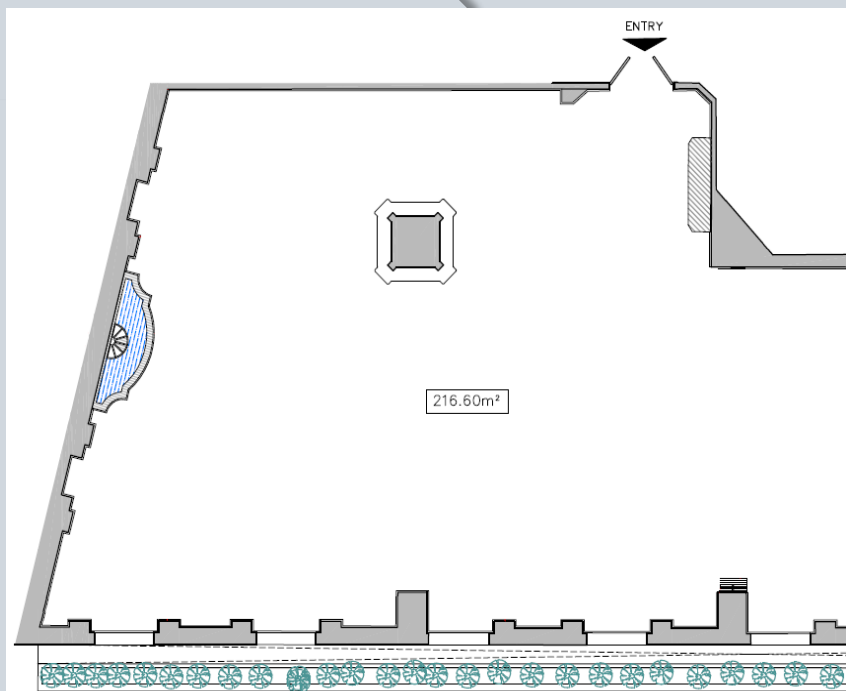

Kallirhoe – 180 seats

#### Exhibition

Kallirhoe Foyer – 190  
sqm – 7 booths 4 sqm

#### Exhibition layout

## WHY SPONSOR

Position your entity at the forefront of sustainable innovation and circular economy.

1

### Invigorate Strategic Visibility

A targeted audience of industry professionals, researchers, policy makers and key players.

2

### Industry Networking

Gain direct access to companies, partners, and experts, towards collaborations and business synergies.

3

### Strengthening Corporate Profile

Become a key player. Showcase your contribution to sustainability, innovation, and industrial transformation.

4

### Access to Innovation

Get aligned with latest advances and state-of-the-art technologies such as artificial intelligence, biotechnology, and sustainable processes.

5

### Bridging Research with Application

Bridging scientific knowledge and industrial implementation to maximize business impact.

6

### Sustainable Industrial Transformation

Be part of initiatives that promote efficiency, reduce environmental footprint, and drive sustainable growth.

# CONFERENCE MARKETING STRATEGY

## 1. AWARENESS

- Targeted outreach to global chemical engineering & sustainability communities
- Leverage EFCE & academic networks
- Website visibility

## 2. ENGAGEMENT

- Newsletters across partner networks
- Direct email campaigns
- Sponsor visibility integration

## 3. AMPLIFICATION

- Social media ecosystem activation
- Partner & institutional channels
- Milestone-driven promotion

**SPONSORSHIP PACKAGES**

## Appendix General terms of business

### ARTICLE 1 – General

Specifications concerning the organization of the Exhibition, in particular its opening and closing dates, its opening hours and admission price are decided by and may be modified according to the will of the organizers.

In the event of an extension, exhibitors who so request, may be authorized to close their exhibition spaces on the date initially agreed, but they may not remove products on display nor change the appearance of the exhibition space before the date fixed by the Exhibition organizers. If for major, unpredictable or economic reasons (such as fire, flooding, destruction, accident, force majeure, local or national strike, riot, insecurity risks, storm, terrorist threat,...), the Exhibition cannot be held, exhibitors' applications will be cancelled and deposits will be returned, after payment of expenses incurred. The exhibitor leaves it up to the organizer to evaluate if the Exhibition must be suspended or evacuated for major, unpredictable or economic reasons or in the event of threat for the safety of the public and undertakes not to make any objection against its decision whatsoever. The exhibitor shall undertake to respect and respect the measures of the Exhibitor Services Manual. The exhibitor is responsible to the organizer for non-observance of the schedule of conditions («le cahier des charges») established by the owner or the main tenant of the site placed at the disposal of the Exhibition organizer. The organizer is not liable for any consequences arising from the enforcement of the provisions of these general regulations.

### ARTICLE 2 - Conditions of participation

The organizer determines the categories of Exhibitors and establishes the list of products and/or services exhibited. An exhibitor may present only equipment, products, processes or services manufactured or designed by himself, or for which he is an agent or distributor; in the latter case, he must attach to his application, the list of brands whose products he intends to exhibit or whose services he intends to present.

After consideration, the organizers may exclude products and/or services which do not appear to him to correspond to the aim of the Exhibition, or allow the presentation of products and/or services which do not appear on the list but which may be of benefit to the Exhibition.

Sales comprising immediate on-site delivery to the buyer are prohibited. In pursuance of the regulation concerning authorized exhibitions, any exhibitor agrees to exhibit only products or equipment in conformity with Greek regulations, except for products or equipment destined for use exclusively outside Greek territory. Moreover, any exhibitor agrees not to proceed with any advertising liable to induce into error or to constitute unfair competition. The products and services presented by the exhibitors must comply with law and order and the laws in effect. For this reason, it is strictly forbidden to exhibit products illicit or proceeding from illicit activities. It is also forbidden for unauthorized person, under the law, to propose services and products which do not comply with the relevant regulated activities by the law.

Any violation of these provisions may result in legal proceedings against the offending exhibitor, without measure which could take the organizers to cease the disorder.

### ARTICLE 3 - Price of the organization service

The price of the organization services is decided by the organizer and may be revised by the organizer if there is a modification to its components, including but not limited to variations in the cost of materials, labor, transportation and services as well as tax and social charges.

### ARTICLE 4 - Terms of payment

Payment for the organization services and other associated costs is to be made by the settlement dates and by methods fixed by the organizer and notified to the exhibitor in the agreement.

For any late application of participation, the first payment is equal to amounts already due at the date of receipt of the application. The same provision applies to exhibitors on the waiting list who are allocated an exhibition space for his products which becomes vacant.

### ARTICLE 5 - Failure to pay

If an exhibitor should fail to pay on due dates and by the specifications stipulated in the preceding article, the organizer shall be entitled to apply the conditions contained in article 6 «Withdrawal». This interest shall be due as of right, and shall be calculated against the aforementioned sum from the date upon which the payment should have been made until the effective date of payment.
